## Software Engineer

ashaanmushtaq@gmaiil.com

Line Par Kassoke Road, Kamoche

## PROFESSIONAL SUMMARY

Motivated and passionate fresh graduate in Software Engineering with hands-on experience in React Native app development, UI/UX design, and ERPNext systems through academic projects and internships. Skilled in using tools like Figma, Firebase, and Cisco, with a strong focus on learning, teamwork, and building real-world applications. Eager to grow in a professional environment where I can contribute to innovative projects and expand my technical and collaborative skills.

## EDUCATION

### Gift University, Gujranwala

Bachelor's in Software Engineering  
2021 - 2025

### Government Degree College

Intermediate FSc (Pre-Engineering)  
2018 - 2020

## TECHNICAL SKILLS

- Mobile App Development: React Native, JavaScript, Firebase, API Integration
- UI/UX Design: Figma, Adobe XD, Prototyping, Usability Testing
- ERP Systems: ERPNext, Frappe HR
- Project Tools: SRS, Agile, Scrum, Jira, Documentation
- Testing: Unit Testing, Bug Reporting
- Databases: Firestore, MySQL

## SOFT SKILLS

- Team Collaboration
- Problem Solving
- Good Communication
- Eagerness to Learn
- Creativity & Innovation

Ready to learn, contribute, and grow in the tech industry!

## WORK EXPERIENCE

### React Native Developer & UI/UX Intern

BAHES TECH | Internship | 2024

- Helped design and develop mobile app screens using React Native and Figma.

### ERP System

Frappe HR Solutions | Internship | 2024

- Learned about ERPNext modules including HR, payroll, and attendance.

## PROJECTS

### Final Year Project – Plant Identification and Care App

Technologies Used: React Native, Firebase, Figma, AI Tools

A mobile app that helps users identify plants and learn how to care for them.

- Designed the UI using Figma and developed screens in React Native.
- Used Firebase for login and data storage.
- Integrated basic AI model for plant recognition.
- Prepared SRS document, conducted testing, and improved usability.

## ACADEMIC PROJECTS

- Developed apps and software in university courses like OOP, Data Structures, and Web & Mobile Computing.
- Worked on system documentation, quality testing, and software design projects.
- Participated in team-based assignments, presentations, and report writing.

## CAREER OBJECTIVE

Looking for an internship opportunity where I can apply my skills in React Native development, UI/UX design, and ERP systems. I am excited to learn from experienced professionals, grow through hands-on experience, and contribute to real-world projects. My goal is to become a skilled software developer who builds useful and creative solutions.
